MAYOR'S INAUGURAL ADDRESS

"Gentlemen of the City Council:

"Let me first extend my congratulations to the members of the Council of 1931 on their election. Many new faces appear this year around the 'horseshoe' and many of the members of 1930 will not be with us.

"I wish to take this opportunity of pledging to and requesting from all the aldermen and city officials, that co-operation and assistance so vitally necessary to efficient civic government in all its multitudinous branches. Kingston has, undoubtedly, made advances during the last three or four years, and I would like at this time to direct your attention to the necessity for team work in order that we may continue to advance and consolidate as we go.

"The year 1931 promises to be a very active one and probably a little trying from a financial standpoint, but with a fair assurance of no increase in the tax rate over 1930.

"Every year the municipalities appear to be obligated to meet large uncontrollable expenditures. We are assessed for old age pensions, mothers' allowances, provincial and suburban highways, and these items along with fixed salaries, city's portion of local improvements, general education, unemployment relief and snow removal, (due to our ever changing traffic conditions) make our uncontrollable expenditure very large in comparison with the small expenditure within our control.

"I am therefore compelled to ask the aldermen to see that the committee appropriations fixed by. Council, be rigidly adhered to and that no overdrafts be incurred or requests for further funds be made, except under extreme circumstances beyond your control.

"I would direct your attention to some of the major items which come to my mind at this time, and which will require our careful attention during 1931.

Development at Cataraqui Bay

"Kingston has been singularly fortunate in having her deep water terminal developed to the extent in which we find it to-day. We must, therefore, pledge our every support in furthering that development along the various channels and in the stages as they present themselves, thereby carrying out the expressed wishes of the people in this regard.

"Our co-operation with the Dominion and Provincial Governments, as well as with the present and any prospective interests, is most vital to the mutual benefit of all concerned.

Lake Ontario Park and Tourist Camp

"Lake Ontario Park and Tourist Camp (probably the finest in Ontario) now belongs to the citizens and it is essential that they be administered by the Parks Committee for the full benefit of our people and our visiting tourists.

"The revenue from the camp must meet all carrying charges on the property so that no deficit from this item be incurred.

King St. Breakwater

"This important piece of waterfront construction, built entirely be local labor under the unemployment relief, should be completed in the spring of 1931 in order that we may reap the full benefit from the promenade and park space.

"This much-needed improvement has materially added to the beauty of this section of the city, and when completed will undoubtedly be one of our most attractive show places.

Transportation and Snow Handling

"These two items must be given intensive thought in order that the safe and easy movement of the people by bus and motor cars be assured to all parts of the city.

"Our snow handling equipment must be ready at all hours of every day and night to cope with any situation which may arise, because the day has arrived when our streets, throughout the winter must present a good appearance and provide easy, safe wheeling and sleighing conditions.

Industrial Development

"We must exert an extra effort to locate new industries in order that steady employment be provided for our local workmen. Co-operation with and support to the Chamber of Commerce is most essential during this trying time. We are hoping to make some very encouraging announcements in the course of a few days regarding our industrial growth in the east end, and I can assure you that every effort is being put forth at the present time to obtain new self-supporting industries.

Town Planning

"It is to be hoped that a measure of town planning will be submitted this year. I would suggest that a special committee deal with this item in order that the work already done in this regard in 1930, be continued and brought to a successful conclusion.

Queen's University

"I think it would be most fitting for the Council of 1931 to consider and show in some tangible manner, our appreciation of the value of Queen's University to the city of Kingston. The rapidly growing University is our most valuable asset, our all year round industry, without which Kingston might appear very small in the eyes of the outside world.

C.N.R. Main Line Diversion

"I feel that we should diplomatically, yet firmly press for an announcement from the C.N.R. authorities as to their intentions regarding their main line diversion and new passenger station. In view of our sanction of the removal of the suburban passenger service with its large annual deficit, the citizens look to us to use our best efforts to have this very important matter settled in 1931 and a definite start made at construction.

Unemployment Relief

"Kingston has been singularly fortunate in regard to unemployment. Everybody knows or should know that we have had an unusual construction program going on here for the last few years. We have had some seasonal unemployment of course, but we have faced the situation in a manner second to none in the Dominion. We have obtained some results from the money expended, and men have been provided with work to the utmost of our ability. Last year, Kingston in its wisdom, was one of the first cities to apply for and obtain assistance from the Dominion and Provincial unemployment relief funds.

"Legitimate works were undertaken and some have been completed. We are being paid regularly as our statements are submitted. We are meeting the situation and refuse to cry hard times.

"Our present east end development is being carried out on a large scale, giving employment to many men. We are getting something tangible in return for the expenditure, and we will be ready to take our place in the sun when the temporary depression is over. Fifty per cent. of all this expenditure comes back to the corporation, and in the meantime we are facing the situation with optimism.

"In conclusion let me hope that your attention to your civic duties will characterize the Council of 1931, in a manner befitting your high office and at the close of the year we may review our work with confidence, having measured up to the trust reposed in us by the citizens generally.

"Let us then get on with the job of leading the way and assisting all our fellow citizens in making Kingston the most prosperous and most beautiful city in Canada."

The Committee on Finance and Accounts, in submitting the estimates for the year 1931, begs leave to report as follows:—

The Bonded Debt of the City to 31st December, 1930, is $2,970,374.89, made up as follows:—

Water Works		$ 17,000.00
Light Works		454,100.00
SCHOOLS:—		
Public	$ 356,744.15	
High	56,400.00	413,144.15
LOCAL IMPROVEMENTS:—		
Corporation's Portion	$ 735,642.27	
Owners' Portion	642,538.47	1,378,180.74
General Purposes		707,950.00
		$ 2,970,374.89

The amount of the Sinking Fund is $1,128,740.61 and of this amount $1,090,190.23 is invested in Government and Municipal Debentures and $38,550.38 is on special deposit in the Bank and interest accrued to 31st December, 1930.

The amount to be levied for the Sinking Fund this year is $157,824.60, the parties specially benefited paying $57,439.31 and the City generally paying $100,385.29.

Your Committee this year has been obliged to provide for a Deficit from last year of about $26,000.00, together with increases for Maintenance of Children, $5,000.00; Hospital, $4,800.00; Old Age Pensions, $2,000.00, and Debentures and Interest about $16,000.00.

The increase in assessment this year from Cataraqui Bay Annex provides about $9,000.00 additional revenue and net demand for Educational purposes is about $6,500.00 less than last year.

In order to maintain the Tax Rate at last year's figures, your Committee has been unable to allow the various Spending Committees any increase on the amounts granted last year.

Your Committee recommends that a rate of 27.50 mills for general purposes and 14 mills for educational purposes, making a total of 41½ mills on the dollar, be placed on this year's ordinary assessment, and that a rate of one-half mill on the dollar for the collection and disposal of garbage be imposed on the assessment liable thereto.

Respectfully submitted,

COPY.

Kingston, April 24th, 1931.

His Worship Mayor G. C. Wright, & Council

Corporation of the City of Kingston.

Gentlemen:—

The Frontenac Floor and Wall Tile Company are contemplating making a large extension to their present premises, providing for accommodation of fifty additional workers which will make a total of over one hundred on the payroll.

The cost of this extension will run in the neighborhood of $100,000.00 Owing to the keen competition from imports, it is essential for us to have our costs down to a minimum, and with this in view we beg leave to ask for a fixed assessment of $20,000.00, including the Business Assessment.

With this in view we will require the assurance and co-operation of the City to meet this competition, before we would undertake the proposed extension.

Trusting that you will give this your favorable consideration, we remain,

Yours very truly,

FRONTENAC FLOOR AND WALL TILE CO. LIMITED.

(Signed) Everett Townsend,

General Manager.

Kingston, May 6th, 1931.

To His Worship, the Mayor and
The Municipal Council of the Corporation
of the City of Kingston,

Kingston, Ont.

Gentlemen:—

With further reference to our application for fixed assessment our factory is a building 270 feet long by 70 feet wide. Up to the present time we have been manufacturing in one end of the building 170 feet long, and storing our materials in the other portion of the building 100 feet long. We find that the manufacturing portion of the building has now been so far occupied that it is becoming quite congested, and that within a short time it will be necessary for us to use the remaining 100 feet for manufacturing purposes. In order to do this it is going to be necessary for us to provide a storehouse to house the materials which will be displaced from the end of the building now being used for that purpose.

We also find that as our business progresses, demands are made upon us to manufacture larger and heavier materials. This, in turn, calls for much heavier machinery.

Under business conditions as existing prior to 1930 we would undertake the modest building programme necessary, together with the installation of the new machinery, without a great deal of hesitation; but because of the changed conditions and more uncertain business outlook we hesitate to make these changes just at the moment. We have the intention, however, of proceeding with these the moment the business outloook has improved and the call becomes urgent. The outlay necessary for these changes will probably amount to $20,000.00 or over. The outlook is that when these expenditures are incurred employment will be increased by 15 to 20 men.

We invite your Council to visit our plant any day so that they may be able to judge for themselves whether we have, up to the present, accomplished the forecast made in our negotiations of July, 1926. We, ourselves, feel that we have far exceeded our expectations of that time, and a visit of a committee from your body will, we believe, convince you of the truth of our statement.

So that there may be no mistake about it we would like to point out to you that we are now asking for a fixed assessment of $10,000.00, whereas our application of July 3rd, 1926, was for a fixed assessment of $1,000.00.

Yours truly,

MCKELVEY & BIRCH LTD.

(Signed) C. A. Macpherson,
Pres.

Kingston, May 8th, 1931.

To the Mayor and Aldermen:—

Gentlemen:—

In making this application for a fixed assessment, we beg to state that the W. J. Crothers Co. Ltd. has been in business in Kingston, since 1869, and our average pay roll for the past eight years amounts to $76,822.81 per annum. We have spent $66,000 in improving our plant during the past ten years, and, we are in need of more room now to operate more efficiently and economically. We need and we intend to erect a building over our yard to join our other building. Our architect's estimate for this is $16,000. We need and intend to pull down the old buildings on Queen St. and erect a building to manufacture our own wood and cardboard candy boxes. This would give employment to at least twenty persons.

These are extensions which are necessary for our business to compete with other firms. As you know we are in the midst of the worst business depression anyone has ever known and business companies are doing their very best to survive it. We regret that we cannot guarantee that we will make these extensions because of this but we do not think we are taking any risk in stating that our Pay Roll will not be less than it is at present. If the extensions are made it will be greater.

We wish business conditions were normal and we could see ahead clearly and we would gladly give any guarantee the Chamber of Commerce would request.

We will have difficulty in making arrangements for financing these improvements and extensions, and if we had an assessment which would be fixed for ten years, it would be the greatest assistance to us and especially at this particular and critical time. We would count ourselves very fortunate to be in a position to make an absolute guarantee, and regret that we are not. We have every reason to believe and in fact it is imperative that we have these extensions made and a fixed assessment would be next to a bonus in assuring and guaranteeing that they will be made, and, we are asking it for a Manufacturing concern which has been doing business in Kingston for Sixty-two years, and this request is the first one.

Respectfully yours,

THE W. J. CROTHERS CO. LTD.
(Signed) President,
W. J. Crothers.

The following is a Copy of a letter of condolence to the family of the late Capt. John Donnelly:

December 29th, 1931.

Capt. Miller Donnelly,
428 Earl Street,
City.

Dear Sir:—

I am instructed by the City Council of Kingston to convey their message of condolence to the family of the late Captain

Donnelly, and also their tribute to his memory as to his worth as a citizen. Although he did not serve in the Council directly, yet he contributed to their assistance indirectly in all their undertakings which he thought to be of a benefit to citizens as individuals and to the City as a whole.

Captain Donnelly was imbued with a wonderful civic spirit which he manifested in the many civic institutions in which he worked, and was probably the outstanding worker in Kingston, especially (when compared with all others) of late years and for a man of his age.

He possessed an enthusiastic spirit for all public works and having an intimate knowledge of marine affairs was a valuable helper on the City Harbour Improvement Committee, where he took an important part in the work of proving that Kingston City was and is the deep water terminus of the Great Lakes. He will be greatly missed as the head of his household and by this Community, because he was an ideal father, friend and neighbor, and always gave unstintingly of his energies for the benefit of his home town and district.

He was very successful in his business and combined an actual zeal for giving service for compensation with a pride of accomplishing feats which seemed to others impossible.

The Members of the City Council will place on their Minutes this their appreciation of Captain Donnelly as an outstanding citizen, who gave his best to his Church, University and Municipality, and regret that he was not given a longer time to assist his fellows with all the works of advancement, which he loved so well.

Yours sincerely,
W. W. SANDS,
City Clerk.

To Adjourn.

Moved by Ald. Joyce, seconded by Ald. Hopkins, that Council do now adjourn.—Carried.
